

Measuring with Plus-Plus

Pre-K-1st grade

Learning Objectives:

Students will describe and compare measurable attributes & measure lengths indirectly. Students will use fine motor skills and problem-solving skills.

.

Preparation:

Print worksheet for each child.

Materials:

Pencil
Printable
Plus-Plus BIG or Plus-Plus

Instructions;

Demonstrate for child how to connect Plus-Plus to measure one item. Child will then measure household items with Plus-Plus and record answers on worksheet.

Extension:

Ask students

- Which is longer?
- Which is taller?
- Add two items lengths together. How long are they?
- Can you compare two items with three other items?
